**JUNE 2005**

# Pueblo Chemical Agent-Destruction Pilot Plant (PCAPP)

## PROJECT UPDATE

Your involvement in the chemical weapons destruction program is important to us, and we're committed to keeping you informed every step of the way. We are pleased to share this brief update on the Pueblo Chemical Agent-Destruction Pilot Plant (PCAPP):

- Department of Defense officials have lifted the construction hold. The Bechtel Pueblo Team is re-starting some stage-one construction efforts, including site improvements such as fencing and road-paving.
- The Program Manager Assembled Chemical Weapons Alternatives (ACWA) and the Bechtel Pueblo Team are exploring options in the plant's design to reduce costs. The safety of the people who will work in the plant and those who live near the depot remains our priority. The construction activities we are starting will support any design option.
- The Design Options Working Group – a subcommittee of the Colorado Chemical Demilitarization Citizens' Advisory Commission (CAC) – is studying the options and will make recommendations to the commission. Next, the commission will make recommendations to ACWA. ACWA will then include the community's recommendations in its discussions with Defense Department officials. These officials will make the final decision on the pilot plant's design.

We invite you to learn more about the design options on the table. Please drop in on any of the information sessions below:

- **Boone Community Information Session**  
Monday, June 27, 7 – 9 p.m.  
Boone Volunteer Fire Department/  
Community Center  
421 First Street, Boone
- **Avondale Community Information Session**  
Tuesday, June 28, 7 – 9 p.m.  
McHarg Park Community Center  
405 Second Street, Avondale
- **CAC Information Session**  
Wednesday, June 29, 4 – 5:30 p.m.  
followed by CAC meeting at 6 p.m.  
Sangre de Cristo Arts Center – Jackson Room  
210 Santa Fe Avenue, Pueblo
